His awareness of my thoughts informs his movements
It's the same for him
And it feels so comfortable.

THIS FOX WAS MADE CLEVER THROUGH GENETIC MANIPU-LATION.

Rin !?
They're working together!

It's almost like they're connected somehow.
Amazing.
Senses his familiarity with the area to confuse their pursuers while Rin attacks
Both their timing and the balance of defense and offense are perfectly matched
If they really decided to work together
there's no one on earth would could stand against them.
They're not human.
Could it be
that they actually are telepathically connected?

I hate to admit it, but it's true
It's incredibly easy for me to team up with Sei like this
I couldn't even do this with Takeru, and he and I have been together since we were kids
SFX: GASP
